

UCSF at ASA
October 19-22, 2024

Saturday, October 19				
Time	Session	Presentation	Presenter	Location
8 am – 12 pm	Ticketed Session: WS801A. Essential Skills Every Anesthesiologist Should Know: Cadaveric Workshop I		Faculty: Katrina Jean G. Gabriel-Ramos Speaker: Matthew Dudley Faculty: Sherry Liou	Hall G
9:30 – 11:30 am	MCC12. Medically Challenging Cases 12 - Monitor 12 (Non-CME)		MCC Facilitator (Monitor 12): Jennifer Woodbury	
9:30 – 11:30 am	MCC16. Medically Challenging Cases 16 - Monitor 16 (Non-CME)	M1190. Which Arm is "Right"? A Case of Vascular Malformations / Subclavian Steal Causing Erroneous Blood Pressure Readings <i>11-11:10 am</i>	Matthew Ribeiro, Matthias R. Braehler	Exhibit Hall
10 – 11:30 am	SAPP15. Pediatric Anesthesia - Paper Posters (Non-CME)	A2060. Experiences and Expectations of Spanish-Speaking Caregivers in the Pediatric Perioperative Setting	Pedro Gallardo, Odinakachukwu Ehie	Exhibit Hall
10 – 11:30 am	SAPP19-2. Perioperative Medicine II - Paper Posters (Non-CME)	A2095. HSK3486 vs Propofol for Induction of General Anesthesia During Elective Surgery: Pooled Obese Subgroup Analyses	Tong Gan, Todd Bertoch, Ashraf S. Habib, Michael Essandoh, Xiao Liu, Rong Zhou, William L. Daley, Adrian W. Gelb	Exhibit Hall
10:30 – 11:30 am	PN411. Quality Reporting and Value-Based Payments: Does the Current System Work for Anesthesiologists?	CMS QPP Programs: Overview of Basic Metrics and Principles of Value Based Care and How Anesthesiology Intercepts	Amy Lu	122B
10:45 – 11:45 am	PN316. How to Avoid Pediatric Misadventures at Your Ambulatory Surgery Center	How Sick is Too Sick? URIs in Pediatric Patients at Ambulatory Surgery Centers Marla B. Ferschl How Much Snoring is Too Much Snoring? Pediatric Patients with Obstructive Sleep Apnea Scheduled for T&A's in Ambulatory Surgery Centers	Marla B. Ferschl, Zhe Chen, MD. Moderator: Andrew Infosino	121C

		Zhe Chen, MD.		
11 am – 12 pm	OR05-1. Clinical Neurosciences I - Oral Presentations (Non-CME)	A1041. Intraoperative Burst Suppression by Analysis of Raw Electroencephalogram is a Strong Predictor of Postoperative Delirium in Older Adults	Niti Pawar, Sara Zhou, Karina Duarte, Amy Wise, Paul S. Garcia, Matthias Kreuzer, Odmara L. Barreto Chang	120B
11 am – 12 pm	PN117. The Medical Education Landscape: Legislative Challenges in Achieving Diversity, Equity, and Inclusion	New Challenges in Medical School Admissions and Residency Selection	Jerolyn Renee Navarro	122A
1 – 3 pm	SEE01. Scientific and Educational Exhibits I (Non-CME)	S01. AVD-M: Remote, Non-Contact, Machine Vision Platform for Monitoring HR, RR, SpO ₂ , Pain, Mood, BP, Out of Bed, and Many Other Parameters	Arthur Wallace, Timothy Heintz, Derek Tan, Nicole Dundas, Sam Ehrman, Julien Cobert, Alfred Wallace	Broad & Arch Entrance
1:30 – 2:30 pm	EA19-2. Perioperative Medicine II - ePosters (Non-CME)	A3360. Comparative Effectiveness of HSK3486 vs Propofol in US and China Populations for Induction of General Anesthesia	Adrian Gelb, William L. Daley, Pangke Yan, Xiao Liu, Qiuxian Chen, Dong Zhang, Huaifeng Wang, Bing Chen, Rong Zhou, Tong J. Gan	Exhibit Hall
1:30 – 2:30 pm	PN121. RADAR: ABCs of DEI		Speaker: Odinakachukwu Ehie Speaker: Leah Pimentel	121B
1:30 – 2:30 pm	ST108. 21st Century Cures Act: Perspectives from Stakeholders and Why it Matters to You Too	Clinician Perspectives and Demystifying Cures Act Concerns	Priya Ramaswamy	118BC
1:30 – 5:30 pm	Ticketed Session: WS801B. Essential Skills Every Anesthesiologist Should Know: Cadaveric Workshop II		Speaker: Matthew Dudley Faculty: Sherry Liou Faculty: Katrina Jean G. Gabriel-Ramos	Hall G
1:30 – 3 pm	Ticketed Session: WS806. ASA Diagnostic PoCUS Certificate Part 2 Workshop: Focused Cardiac Ultrasound Image Acquisition	ASA Diagnostic POCUS Certificate: Part 2	Mina Khorashadi	103A

2 – 3:30 pm	MCCPP02. MCC Paper Posters 2 - Critical Care (Non-CME)		MCC Moderator (Posters 21-40): Kaveh Hemati	Exhibit Hall
2 – 3:30 pm	MCCPP05. MCC Paper Posters 5 - Perioperative Medicine (Non-CME)		MCC Moderator (Posters 81-100): Dieter Adelman	Exhibit Hall
2:45 – 3:45 pm	EA06-1. Critical Care I - ePosters (Non-CME)		Moderator: Martin London	Exhibit Hall
2:45 – 3:45 pm	EA16-2. Regional Anesthesia and Acute Pain II - ePosters (Non-CME)	A3295. Prescribing opioids to Vascular Surgery Patients who haven't needed inpatient Opioids before discharge does not reduce opioid refills	William Mao, Zhonghui Guan	Exhibit Hall
2:45 – 3:45 pm	OR14-1. Patient Safety and Practice Management I - Oral Presentations (Non-CME)	A1140. National Survey of Non-Operating Room Anesthesia Infrastructure and Near Miss Reporting	Raina Khan, Kristie Sun, Jacqueline Leung	120B
3 – 5 pm	MCC42. Medically Challenging Cases 42 - Monitor 2 (Non-CME)		MCC Facilitator (Monitor 2) Victor Ng	Exhibit Hall
3 – 5 pm	MCC56. Medically Challenging Cases 56 - Monitor 16 (Non-CME)	M1653. Can't Ventilate, Can't Intubate: A Case of Undiagnosed CHAOS in a Neonate <i>3:40 PM - 3:50 PM</i>	Tiffany Lei, Kiran Puri (UCSF) Jocelyn Wong	Exhibit Hall
4 – 5 pm	OR02-1. Experimental Foundations of Perioperative Medicine I - Oral Presentations (Non-CME)	A1006. Results of US Phase 3 Studies of HSK3486 vs Propofol for Induction of General Anesthesia During Elective Surgery	Adrian Gelb, Rong Zhou, William L. Daley, Pangke Yan, Xiao Liu, Yu-Ling Lai, Todd Bertoch, Michael Essandoh, Ashraf S. Habib, Tong J. Gan	120B
4 – 5 pm	OR16-1. Regional Anesthesia and Acute Pain I - Oral Presentations (Non-CME)		Moderator: Kerstin Kolodzie	
4 – 5 pm	PN134. Mentorship Matters: The Power of Pipelines	ASA Doctors Back to School Program	Odmara Barreto Chang	Exhibit Hall

Sunday, October 20				
Time	Session	Presentation	Presenter	Location
8 – 9 am	OR08-2. Equipment, Monitoring and Engineering Technology II - Oral Presentations (Non-CME)	A1073. Hemostatic Assessment of Patients Under the Influence of Heparin or Endogenous Heparinoids Using a Novel Heparin Neutralizing TEG® 6s Cartridge	Jan Hartmann, Dieter Adelman , Joao Dias, Kathirvel Subramaniam, Tetsuro Sakai	120B
8 – 9 am	PN202. Favorite Papers: Latest in Critical Medicine		Moderator: Chris Choukalas	121A
8 – 9 am	RCL201 . Postpartum Hemorrhage: How to Prepare for It, How to Prevent It, and What to Do When Blood is Pooling on the Floor	Postpartum Hemorrhage: Prevention and Treatment	Alexander Butwick	115AB
8 – 11 am	SPE09. Best Abstracts	Intraoperative Burst Suppression by Analysis of Raw Electroencephalogram is a Strong Predictor of Postoperative Delirium in Older Adults	Niti Pawar, Sara Zhou, Karina Duarte, Amy Wise , Paul S. Garcia, Matthias Kreuzer, Odmara L. Barreto Chang	118BC
8 am – 12 pm	Ticket Session: WS811A. Difficult Airway Management Including Simulation and Ultrasound		Faculty: Matthew T. Dudley	Hall G
9:15 – 10:15 am	PN214. Hot Topics in Pediatric Anesthesia: Editor's Selections Part 1		Co-Moderator: Jina L. Sinskey	121C
9:15 – 10:15 am	SPE11. FAER/eSAS Day for New Researchers: Perspectives on Careers in Research		Speaker: Elizabeth Whitlock	201AB
9:30 – 11:30 am	MCC76. Medically Challenging Cases 76 - Monitor 16 (Non-CME)	M1892. Coronary Vasospasm - An Uncommon Cause of Perioperative ST-segment Elevations	Lucas Suazo, Alyssa Brisbin, Matthias Braehler MCC Facilitator (Monitor 16): Veronica Segredo	Exhibit Hall

9:30 – 11:30 am	MCC80. Medically Challenging Cases 80 - Monitor 20 (Non-CME)		MCC Facilitator (Moderator 20): Stefan Simon	Exhibit Hall
10:30 – 11:30 am	Ticketed Session: PBLD225. Radiographic Opacity in a Child Who Vomited at Induction: Is It Aspiration?	Table 1. Radiographic Opacity in a Child Who Vomited at Induction: Is It Aspiration?	Preethy J. Mathew	126A
10:30 – 11:30 am	PN218. Hot Topics in Pediatric Anesthesia: Editor's Selections Part 2		Co-Moderator: Jina L. Sinskey	121C
10:30 am – 12 pm	Ticketed Session: WS816. Advanced Ultrasound-Guided Regional Anesthesia Workshop		Moderator: Sakura Kinjo Faculty: Matthias R. Braehler Faculty: Kerstin Kolodzie	103C
10:45 – 11:45 am	EA15-2. Pediatric Anesthesia II - ePosters (Non-CME)	A3270. Effect of Different Fresh Gas Flows on Intraoperative Hypothermia Among Neonates Undergoing Abdominal Surgeries: A Prospective Randomized Controlled Trial	Preethy J Mathew, MD	Exhibit Hallws811b
1 – 3 pm	SEE02. Scientific and Educational Exhibits II (Non-CME)	S01. AVD-M: Remote, Non-Contact, Machine Vision Platform for Monitoring HR, RR, SpO ₂ , Pain, Mood, BP, Out of Bed, and Many Other Parameters	Arthur Wallace , Timothy Heintz, Derek Tan, Nicole Dundas, Sam Ehrman, Julien Cobert, Alfred Wallace	Broad & Arch Entrance
1:30 – 2:30 pm	EA08-3. Equipment, Monitoring and Engineering Technology III - ePosters (Non-CME)	A3144. Establishment of Clinical Decision Points for the Functional Fibrinogen Assay on the Novel TEG® 6s Global Hemostasis - HN Cartridge	Jan Hartmann, Dieter Adelman , Joao Dias, Kathirvel Subramaniam, Tetsuro Sakai	Exhibit Hall
1:30 – 2:30 pm	OR18-1. Geriatric Anesthesia - Oral Presentations (Non-CME)			120A
		A1200. The Combined Impact of Chronic Conditions and a Genetic Marker for Dementia on Incident Postoperative Delirium among Older Elective Surgery Patients	Thisha Thiagarajan, Laura Sands, Jacqueline Leung	120A
		A1201. Preoperative Remote Cognitive Assessment for Delirium Prediction: A Pilot Study	Sara Zhou , Anika Sinha , Amy B. Wise, Sreya Dhanam, Kaylee Hernandez , Adam L. Boxer, Adam	120A

			M. Staffaroni, Odmara Barreto Chang	
1:30 – 2:30 pm	PC201. For Acid-Base Analysis the Stewart Method is Superior to Henderson-Hasselbalch	Con: The Henderson-Hasselbalch Technique Can Be Applied Clinically Using 'Back of an Envelope' Calculations and Is Adequate for Clinical Use	Ashish Agrawal	121B
1:30 – 2:30 pm	SPE15. 33rd Journal Symposium: Artificial Intelligence, Machine Learning, and Data Analytics in Anesthesiology	Uses and Abuses of Artificial Intelligence in Research: An Editor's Perspective	Romain Pirrachio Lead Speaker: Martin London	118BC
1:30 – 5:30 pm	Ticketed Session: WS811B. Difficult Airway Management Including Simulation and Ultrasound		Faculty: Matthew Dudley	Hall G
2:45 – 3:45 pm	OR16-2. Regional Anesthesia and Acute Pain II - Oral Presentations (Non-CME)		Moderator: Kerstin Kolodzie	120A
2:45 – 3:45 pm	MOCA ST212. Crisis Management in Neuroanesthesia	Diagnosis and Management of Venous Air Embolism	Oana Maties	122A
3:15 – 5:15 pm	MCC102. Medically Challenging Cases 102 - Monitor 2 (Non-CME)		MCC Facilitator (Monitor 2): Ludwig Lin, MD. MCC Moderator (Monitors 1-3) Vanessa Henke, MD, FASA. San Francisco, CA, USA.	Exhibit Hall
4 – 5 pm	ST215. It's Often Not Simple! Pearls for Managing Challenging Patients in the Ambulatory Surgery Center	The Patient on Chronic Buprenorphine, Naltrexone, or Methadone at the ASC	Jeremy Juang	117

Monday, October 21				
Time	Session	Presentation	Presenter	Location
9:30 – 11:30 am	MCC121. Medically Challenging Cases 121 - Monitor 1 (Non-CME)		MCC Moderator (Monitors 1-2): Kate Kronish	Exhibit Hall

9:30 – 11:30 am	MCC122. Medically Challenging Cases 122 - Monitor 2 (Non-CME)		MCC Moderator (Monitors 1-2): Kate Kronish	Exhibit Hall
9:30 – 10:30 am	PC301. The Role of Vasopressors in Trauma		Moderator: Nandini C. Palaniappa	118A
9:30 – 10:30 am	PC302. Should All Pediatric Patients With a URI Be Extubated Deep Following Anesthesia?	Awake Extubation to Reduce Significant Respiratory Events in Pediatric Patients With a URI	Marla B. Ferschl	121C
9:30 – 10:30 am	PN309. An Update of Regional Anesthesia Research in the Last Five Years That Might Influence Our Practice	An Update of Regional Anesthesia Research in the Last Five Years That Might Influence Our Practice #2	Kerstin Kolodzie	107AB
10:45 – 11:45 am	PN316. How to Avoid Pediatric Misadventures at Your Ambulatory Surgery Center	How Sick is Too Sick? URIs in Pediatric Patients at Ambulatory Surgery Centers Marla B. Ferschl How Much Snoring is Too Much Snoring? Pediatric Patients with Obstructive Sleep Apnea Scheduled for T&A's in Ambulatory Surgery Centers Zhe Chen	Marla B. Ferschl, Zhe Chen Moderator: Andrew Infosino	
10:45 – 11:45 am	ST306. Anesthesia X: Hot Innovations in Perioperative Management Technologies	Continuous Remote Monitoring for Postoperative Care	Amy Lu	115C
2:45 – 3:45 am	PBLD347. Radiographic Opacity in a Child Who Vomited at Induction: Is It Aspiration?	Table 11. Radiographic Opacity in a Child Who Vomited at Induction: Is It Aspiration?	Preethy J. Mathew	126A

Tuesday, October 22				
Time	Session	Presentation	Presenter	Location
9:15 – 10:15 am	CF401. Pediatric Perioperative Emergencies: Laryngospasm, Bronchospasm, and Emergence Delirium, Oh My!	Laryngospasm	Marla B. Ferschl	121C

9:15 – 10:15 am	PN402. Delirium Pathophysiology and Risk Factors Across the Perioperative Journey	Remote Cognitive Assessment Tools for Delirium Risk	Odmara Barreto Chang	122A
9:15 – 10:15 am	ST403. Geriatric Anesthesia: Beyond Brain Health and Frailty		Introduction: Marek Brzezinski	124
10:30 – 11:30 am	PN411. Quality Reporting and Value-Based Payments: Does the Current System Work for Anesthesiologists?	CMS QPP Programs: Overview of Basic Metrics and Principles of Value Based Care and How Anesthesiology Intercepts	Amy Lu	122B
11:45 am – 12:45 pm	CF405. Acidosis in the OR and ICU: Thinking Beyond the Lactate	Presentation of a Complex Case	Ashish Agrawal	121B
